## **Unite RP | Unite RP-T**

Digital Bodypack Receiver

#### **FEATURES**

- · Compact design
- DECT technology for worldwide use without registration and free of charge
- High security against unauthorised listening due to AES-256 code encryption
- · On-off and menu button
- · Multifunction button
- Volume button for connected headphones, headset, induction loop
- Status indicator (LED) for operating and charging status
- OLED display to indicate the channel name, battery status and different menus
- Charging via charging contacts or USB connection, type C
- · Unite RP: Connection for headphones / induction loop
- Unite RP-T: Connection for headphones / headset / induction loop
- · Operation with integrated lithium ion battery
- · Operation time > 15 hours
- · Belt clip to attach to clothing
- · Removable neck strap for wearing around the neck

#### Unite RP-T version additionally with:

- · Integrated microphone
- · Talkback button for speaking to the guide

#### **APPLICATIONS**

The compact Unite RP bodypack receiver is ideal for guided tours. Interpretation applications and assistive listening are also possible.

Headphones or an induction loop for people with hearing aids can be connected to the mini jack connection (3.5 mm). The Unite RP-T version can also be used with a headset.

Furthermore, the **Unite RP-T** version has an integrated microphone and talkback button. This talkback function of the receiver allows the dialogue within one group. More guides or speakers can also be actively integrated. A maximum of three people can speak simultaneously within one larger group.

The connection cable of the headphones, headset or the induction loop also serves as an antenna, so that the wearing comfort is not impaired by a separate antenna. Outside the operating range is up to 300 m when the transmitter and receiver are in line of sight.

The OLED display provides a brilliant, easy-to-read display of channel, battery status and various menus. The receiver can either be attached to clothing with the belt clip or worn around the neck with a neck strap.

The transmitter is powered by an integrated lithium-ion battery pack.

The receiver meets the requirements for accessibility due to raised symbols on the control buttons and braille on the talkback button (Unite RP-T).

All devices are supplied with a predefined group ID and fixed audio encryption allowing quick and easy setup. This allows for quick and easy initial use. The group ID identifies devices that can be placed in a virtual group. For example, all devices within a building, a tour group or a conference room. The transmitter will only transmit the audio signal to a channel with a predefined channel name. If there are several transmitters in a group, the channel for the respective transmitter can be selected on the receiver. You will need to establish a pairing if you require several device groups or secure audio transmission that cannot be intercepted by another group using Unite devices.

#### **VERSIONS**

Unite RP Digital bodypack receiver,

EU version, with OLED display, headphone mini jack (3.5 mm), USB type C, integrated Li-lon battery, incl. belt clip

and neck strap . . . . . Order # 710.679

Unite RP (NA) same as above,

but version for

North America..... Order # 739.251

Unite RP (JP) same as above,

but version for Japan.... Order # 739.316

Unite RP-T same as Unite RP, however,

with talkback function and

integrated microphone. . Order # 710.687

Unite RP-T (NA) same as above,

but version for

North America..... Order # 739.278

Unite RP-T (JP) same as above,

but version for Japan.... Order # 739.324

#### SUPPLIED ACCESSORIES

- Unite RP or RP-T bodypack receiver with mounted belt clip
- Quick start guide
- Neck strap
- · Unite RP: Two spare blind caps
- · Unite RP-T: Two spare caps for the talkback button

#### **OPTIONAL ACCESSORIES**

DT1 Single-ear headphone,  $32 \Omega$ ,

mini stereo jack (3.5 mm),

cable length 0.9 m . . . . . Order # 724.521

DT 2 Headphones,  $32 \Omega$ ,

mini stereo jack (3.5 mm),

cable length 0.8 m..... Order # 484.679

IL 200 Induction loop, 0.20 m,

mini stereo jack (3.5 mm),

extension cable 0.77 m.... Order # 725.161

#### **TECHNICAL SPECIFICATIONS**

DECT RF frequency range ..... 1880 - 1930 MHz,

depending on the country
DECT transmission power . . . . . up to 250 mW (peak),
depending on the country

DECT operating range ...... up to 300 m outside

(line of sight); the actual operating range depends upon the RF output settings, the surroundings, the signal absorption, signal reflection and signal interference

Audio bandwidth

Encryption ...... AES-256 encryption

Connector for headphone/

induction loop/

headset (Unite RP-T only)......4-pin mini jack, 3.5 mm,

CTIA Standard

Display ...... monochrome white OLED

display with high contrast Battery . . . . . . lithium-ion battery pack,

replaceable by service

staff only

Battery monitoring . . . . . . . Battery status of

remaining capacity via

OLED display

Operating time

of battery pack ......> 15 hrs., typ.

USB Type C connector ...... USB 2.0/3.0 standard,

compatible to 5 V power

supplies only, power consumption max. 500 mA

Strap anchor points..... available, neck strap

removable

Dimensions (W x H x D)  $\dots 58 \times 102 \times 15.5 \text{ mm}$ 

Weight (incl. battery).....105 g

Temperature range

 Operation
 -10 to +40 °C

 Storage
 -20 to +70 °C

 Relative humidity
 0 to 90%

**Unite RP-T only** 

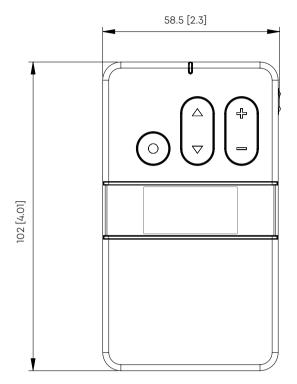

Integrated microphone ..... yes

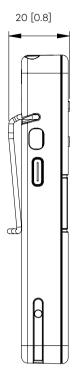

Side-tone and

microphone gain.....individually adjustable Max. number of

# **Unite RP | Unite RP-T**
